

BYGGOPP

Training office for Building and Construction

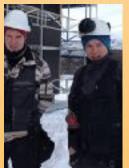

Future collaborations in the best interest of the construction industry

BYGGOPP is a national chain of training offices (10 in total) affiliated with the EBA.

It is Norway's largest such chain for the construction industry, and it is owned by the member companies. Approximately 2300 apprentices.

Byggopp Hålogaland is, in addition, a member of Byggmesterforbundet and collaborates with a number of associations within the industry, as well as the BNL. A majority of our members are also members of the Confederation of Norwegian Enterprise (NHO). The board consists of representatives from the construction trades.

BYGGOPP Hålogaland (North of Norway):

The construction industry's training office

 250 apprentices and 130 membership companies from this area

- Offices in Tromsø and Bodø
- Our workplace is wherever apprentices are located throughout the region
- Excellent collaborations with schools and county councils.
- One common goal: making vocational programmes a natural and attractive choice.

A few words about us

Jørn Ridderseth, CEO

Background: Master Mason, teacher in the construction trades and engineer

The responsibilities for BYGGOPP

- 1. BYGGOPP writes contracts with the apprentices in the training companies
- 2. We make accommodations for apprentices who require additional teaching in theoretical subjects
- 3. Marketing the construction industry to schools, young people and parents
- 4. Collaborating with organisations and associations in the industry
- 5. Meetings with the other BYGGOPP offices and other training offices
- 6. Assisting with communications with the county council, the Educational and Psychological Counselling Service (PPT), and the follow-up service in special circumstances
- 7. We follow up the apprentices and receive feedback on the work they do
- 8. We make sure that the training companies fulfils their duties
- 9. We make sure that the apprentices fulfil their duties
- 10. Instructor courses, courses in exam preparation and events related to give out trade certificates and certificates
- 11. If necessary we transfer apprentices to new training companies

A great need for skilled workers in Norway

- Norway needs 8500 new workers each year
- AS Norge needs people who can build this country!
- 1500-2000 engineers in building and construction
- In year 2030 we will need 30 000 employees for this industry

A junior high school project - Building tiny houses

Schools:

- Saltstraumen
- Saltvern
- Bankgata
- Løpsmarka
- Rønnvika

Participation in the Norwegian Championships

3rd place in Building and construction and the concrete trade, Bergen 2016

2nd place in Building and construction, Oslo 2018

The vision of BYGGOPP Hålogaland

BYGGOPP Hålogaland is to be a leader in vocational training and be perceived as a natural first choice in the industry.

Furthermore:

- Byggopp will have qualified, well-informed and motivated employees
- Byggopp will appear unified in the media
- Byggopp will work for good conditions and relevant content in the vocational programmes
- Byggopp will work for a secure and friendly work environment

FØLGOPP (Follow-up)

- Our most important it-tool

OUR TRACK-KEEPING SYSTEM (FØLGOPP)

- 1.FØLGOPP updates continually
- 2.FØLGOPP is a tool for documenting and ensuring correct training
- 3. The apprentice uses FØLGOPP to measure themselves in relation to the aims of their training.

This is done either online or using an APP on the apprentice's phone

Planning and documentation

▼ Dokumentert og sertifisert opplæring

Her kommer punkter for dokumentert og sertifisert opplæring

▼ Planlegging og dokumentasjon

Her kan dere lime kompetansemål for planlegging og dokumentasjon

Planlegging og dokumentasjon.

Kunne bruke tegninger og arbeidsbeskrivelser

Kunne benytte fremdriftsplan

Kunne lage materialliste

Kunne lage verktøys- og utstyrsliste

Kunne sette ut og kontrollere mål og høyder

Kjenne til/bruke digitale løsninger som eksempelvis BIM, VDC, Smartdoc, Byggforsk og lignende

▼ Lærlingens utvikling
